\$125**

Why does your Dog need preventive care?

Regular preventive care is essential for your adult/senior Dog’s continued health. Our wellness plan saves you money on the total cost of recommended preventive care treatments. Best of all, this plan features budget-friendly monthly payments – making it easy to manage your Dogs healthcare cost.

Vaccinations help healthy dogs stay health.

Your veterinarian will recommend the vaccination protocol that is most appropriate for you dog based on lifestyle, breed and other important factors.

Diseases can creep up quickly and quietly.

Dogs age much faster that we do. So even if your Dog looks perfectly healthy, diseases and health problems could be lurking undetected. Physical exams and diagnostic tests are crucial for finding problems not visible to the naked eye.

Prevention is the key to better health

Preventive care can improve your Dog’s quality of life and help add more healthy years. It’s essential for detection diseases early on, before they become more serious – and more expensive.
